

Md. Al Amin Shakil

Junior System Engineer — Enterprise Linux, Oracle & Virtualization

Dhaka, Bangladesh | mdalaminshakil31@gmail.com | +8801557114072 | linkedin.com/in/md-al-amin-shakil

Professional Summary

Junior System Engineer with hands-on experience across Linux administration, Oracle enterprise systems, and virtualization. Skilled in monitoring and troubleshooting Exadata, SPARC/X-Series, and Private Cloud Appliance (PCA) environments for banking and telecom clients. Strong in OS deployment and upgrades, storage (LVM/RAID/Multipath), networking (bonding/VLAN/DNS), SSL/TLS, and security hardening. Known for reliable 24x7 support, log analysis, and structured incident handling.

Core Skills

Operating Systems	Oracle Linux, RHEL, CentOS, Ubuntu Server/Desktop
Oracle Solaris & Virtualization	Solaris 10/11 Administration, ZFS Storage Management, Solaris Zones/Containers, LDOM Management, SMF Configuration
System Administration	Installation & Configuration, OS & Kernel Upgrades, systemd, journald, Performance Triage
Storage	LVM (PV/VG/LV, Resize, Snapshots), mdadm RAID (0/1/5/10), ext4/xfs/btrfs, iSCSI, Multipath
Networking	NIC Teaming/Bonding (802.3ad), VLANs, IPv4/IPv6, Static Routes, Firewall (firewall/ufw/iptables), DNS (BIND)
Virtualization Platforms	VMware ESXi, Oracle VM, KVM/libvirt, Microsoft Hyper-V
Security	SELinux/AppArmor, SSH Hardening, auditd, OpenSSL (CSR, Self-signed, Renewal)
Monitoring & Databases	Log Analysis (journalctl/rsyslog), Snapshots/rsync Backups, Nagios/Zabbix/Prometheus, Oracle Database (11g/19c), MySQL Administration

Professional Experience

Junior System Engineer — Express System Limited

Sep 2024 — Present

- Provide enterprise support on SPARC and X-Series Oracle systems for banking and telecom clients; participate in 24x7 on-call rotation.
- Monitor PCA, Exadata, and SPARC servers to detect anomalies via log/metric review; perform first-line diagnostics and escalate with context.
- Triage and remediate customer issues, coordinating with internal teams and vendors for timely resolution.
- Administered Oracle Solaris environments on SPARC infrastructure, managing ZFS file systems and configuring network interfaces to ensure high availability for mission-critical banking applications.
- Provisioned and managed Solaris Zones to isolate application environments, optimizing resource utilization across SPARC T-Series servers.
- Configured ZFS storage pools and datasets, implementing snapshots and replication strategies to ensure data integrity and rapid recovery.

IT Support Engineer — Cubix Technology

Mar 2024 — Jun 2024

- Supported hotel management software and databases; delivered client support, hardware/software setup, and network monitoring.
- Configured client environments and resolved user issues to improve system stability; produced operational reports.
- Implemented network monitoring solutions, identifying and resolving potential connectivity issues before they impacted hotel operations.

IT Executive — Pacifist Corporation Group

Sep 2023 — Feb 2024

- Administered domain/server controls and DNS; executed scheduled server updates to improve uptime.
- Streamlined deployment and maintenance processes to enhance availability for enterprise applications.
- Established robust server update schedules and DNS administration, significantly enhancing enterprise application availability.

Selected Projects

Oracle Database Appliance X11 High Availability — NRB Bank

Apr 2026 — Jun 2026

High-availability OS deployment and patching for an Oracle Database Appliance X11 cluster supporting mission-critical banking workloads.

- OS install and configuration of Oracle Linux 8 on ODA X11 for the HA cluster.
- Patch configuration of Oracle Exadata and ODA X11 to ensure system stability and security.
- Network setup and HA configuration for Oracle RAC across both DC and DR sites.

Virtual Machine Setup — Express System Limited

Sep 2025 — Nov 2025

Automated provisioning system for cloud-based virtual machines, standardizing deployment across multiple environments and DevOps pipelines.

- Devised an automated provisioning system for cloud-based VMs, enabling rapid scaling and standardized deployment configurations.
- Unified provisioning processes and ensured consistent environment configurations across diverse platforms.
- Centralized environment management and facilitated seamless integration with existing DevOps pipelines.
- Architected secure deployments using VMware ESXi, Oracle VM, KVM/libvirt, and Microsoft Hyper-V.
- Modernized security protocols, minimizing vulnerability exposure and aligning with compliance standards.
- Refined monitoring and alerting mechanisms to reduce downtime risk and support service reliability.

RDP Setup — Inovi Solutions

Jul 2025 — Oct 2025

Robust Remote Desktop Protocol setup enabling secure, high-performance remote access for distributed teams.

- Engineered a robust RDP setup, strengthening security protocols and optimizing performance for distributed teams.
- Integrated multi-factor authentication, minimizing unauthorized access risks and bolstering compliance.
- Centralized policy enforcement for configuration management, ensuring consistent security updates.
- Incorporated automated monitoring tools for proactive vulnerability detection and swift incident response.

Education

B.Sc. in Computer Science & Engineering

2019 — 2023

East West University

Higher Secondary Certificate (HSC)

2017

Rajuk Uttara Model College

Secondary School Certificate (SSC)

2015

Ispahani Public School & College, Comilla

Certifications

Red Hat Certified System Administrator (RHCSA)

Red Hat · Sep 2026 · ID 260-114-632

www.cred-ly.com/badges/cefe2ce0-b6b8-425a-816a-f2c9d93c5301

Oracle Cloud Infrastructure 2025 Certified Foundations Associate

Oracle University · Aug 2025 · ID 101862287OCI25FNDCFA

Certificate of Appreciation — Paper Presentation, ICBIM 2023

Daffodil International University · Sep 2023

Certified Cybersecurity Educator Professional (CCEP)

Red Team Leaders · Dec 2025

courses.redteamleaders.com/exam-completion/0a9de68ed2d51b46

MySQL Implementation Certified Associate

Oracle University · Jun 2025 · ID 101862287MYSQLIMPOCA

Blockchain for Network Engineers Course

Orhan Ergun · Aug 2022

Backend Engineering with Python

Tecognize Training · Apr 2022

Certified Ethical Hacker (CEH)

Team Matrix — Elite Hackers · Feb 2022 · ID CEHE0120R
